

ClearFactr

Cloud-Based Financial Modeling Program

Who we are

ClearFactr is a SaaS spreadsheet platform purpose-built for financial modeling

- It enables users to create an integrated ecosystem out of dispersed, distributed and disconnected financial models
- It can be used via a spreadsheet-like user interface within a web browser, and/or programmatically via APIs
- It combines unique approaches to modeling clarity, powerful low/no-code analytics, and collaboration to solve a wide variety of risk, modeling and workflow challenges throughout the firm

Key Benefits

 Scenario Analytics	 Model Auditing	 Low-Code Workflows
<ul style="list-style-type: none"> ▪ Overlay scenarios over a base case version of your model ▪ See impact of different scenarios directly in the model ▪ Permission scenarios for different audiences 	<ul style="list-style-type: none"> ▪ View “infinite” history of cell changes ▪ Identify model inputs, intermediate calculation cells, and output cells ▪ View calculations inside a cell using “natural” language ▪ View impact of a cell on other cells 	<ul style="list-style-type: none"> ▪ Separate business logic code from execution code ▪ Integrate models into larger workflows using ClearFactr APIs ▪ Execute models in a “headless” state

Two ways Goldman Sachs uses ClearFactr

Running models, at scale, in real time

- Pull data into models from disparate sources via APIs
- Push alerts to people when outputs of models become “interesting”

Providing a single source for important models

- Out of the box SDLC controls for model management
- Scenario Tool allows multiple views of any model
