

Goldman Sachs Presentation to Bank of America Merrill Lynch Future of Financials Conference

R. Martin Chavez
Chief Financial Officer

November 14, 2017

Cautionary Note on Forward-Looking Statements

- Today's presentation includes forward-looking statements. These statements are not historical facts, but instead represent only the Firm's beliefs regarding future events, many of which, by their nature, are inherently uncertain and outside of the Firm's control. Forward-looking statements include statements about potential revenue and growth opportunities. It is possible that the Firm's actual results, including the incremental revenues, if any, from such opportunities, and financial condition, may differ, possibly materially, from the anticipated results, financial condition and incremental revenues indicated in these forward-looking statements.
- For a discussion of some of the risks and important factors that could affect the Firm's future results and financial condition, see "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2016. You should also read the forward-looking disclaimers in our Form 10-Q for the period ended September 30, 2017, particularly as it relates to capital and leverage ratios, and information on the calculation of non-GAAP financial measures that is posted on the Investor Relations portion of our website: www.gs.com. Statements about our revenue and growth opportunities are subject to the risk that the Firm's businesses may be unable to generate additional incremental revenues or take advantage of growth opportunities.
- The statements in the presentation are current only as of its date, November 14, 2017.

Current State of our Franchise

2017YTD in Review¹

Net Revenues

Pre-Tax Margin

Diluted EPS²

BVPS³

Annualized ROE²

Strong performance shows resilience of the business and operating leverage of the franchise

¹ YTD through September 30

² 2017YTD included a \$496mm reduction to provision for taxes as a result of the Firm's adoption of the share-based accounting standard, resulting in an increase to diluted EPS of \$1.20 and to annualized ROE of 0.9%

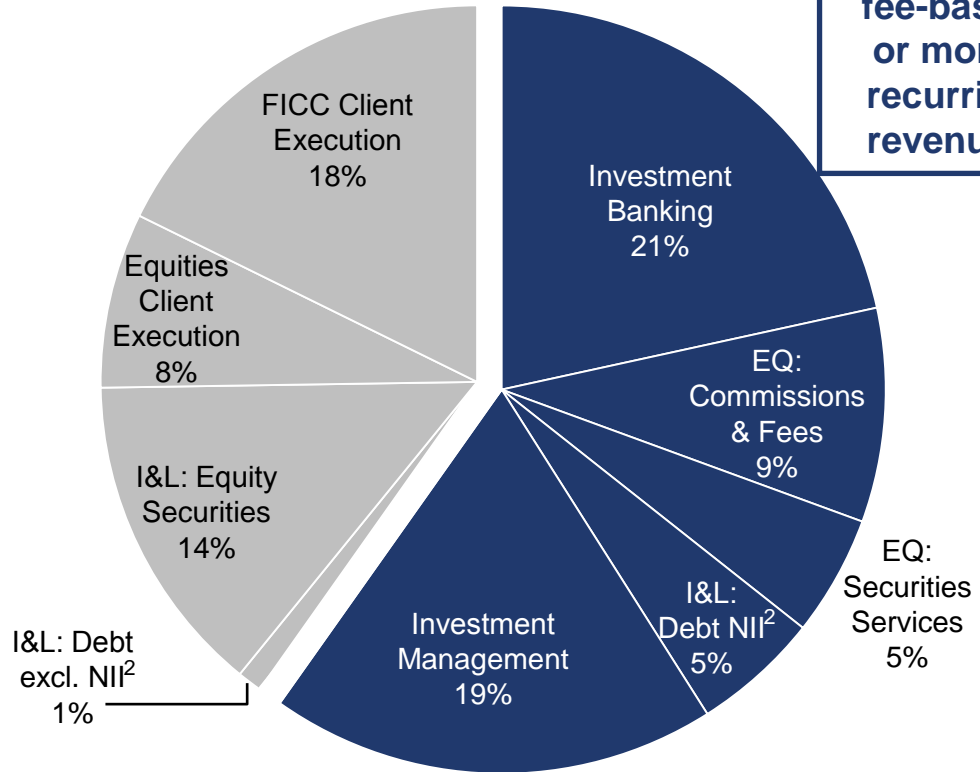

³ Book value per share (BVPS)

Current State of the Franchise

2017YTD Net Revenue Mix¹

Diversified mix of businesses with majority of net revenues from fee-based or more recurring sources

~60% from fee-based or more-recurring revenues

¹ YTD through September 30
² Net Interest Income

Cost and Capital Management

Driving Shareholder Value

Key Drivers of Long-Term Shareholder Value

Strong Return on Equity

Book Value per Share Growth

Optimize Drivers of Shareholder Value

-  Maintain strong capital position to protect long-term franchise
-  Return excess to shareholders
-  Invest for future growth

Operate Efficiently

-  Defend returns in challenged revenue environments
-  Deliver operating leverage in stronger revenue environments
-  Attract and retain top talent
-  Invest for future growth

Dynamic Capital Allocation

Maintaining leadership in core competencies while reallocating capital to capture expanding opportunity set

Adapt Market Making Franchise

3Q17 vs. 2Q13¹

Increase Allocation to Lending

3Q17 vs. 4Q13

Meet Client Demand

Optimize vs. Capital Constraints

Maximize Benefit of Deposit Funding

9.2%
4Q13

Strengthening Capital Ratios²

13.0%
3Q17

¹ In addition to our U.S. GAAP balance sheet, we prepare a balance sheet that generally allocates assets to our businesses, including ICS, which is a non-GAAP presentation. See our Form 10-Q for the period ended September 30, 2017 for more information about this non-GAAP presentation. RWAs calculated on a fully phased-in basis under the Basel III advanced approach based on the Federal Reserve Board's final rule.

² Common Equity Tier 1 ratio calculated from 4Q13 to 3Q17 on a fully phased-in basis under the standardized approach based on the Federal Reserve Board's final rule

Disciplined Capital Return

Payout Ratios

Average P/B of buybacks: 1.0x

~\$38bn
Total capital return
from 2012-3Q17¹
(buybacks + dividends)

393.7mm
Shares at 3Q17
lowest ever²

Benefits of Share Repurchases to Key 2017YTD Metrics^{1,3}

Book Value per Share

+\$11.78

Earnings per Share

+44%

Return on Equity

+270bps

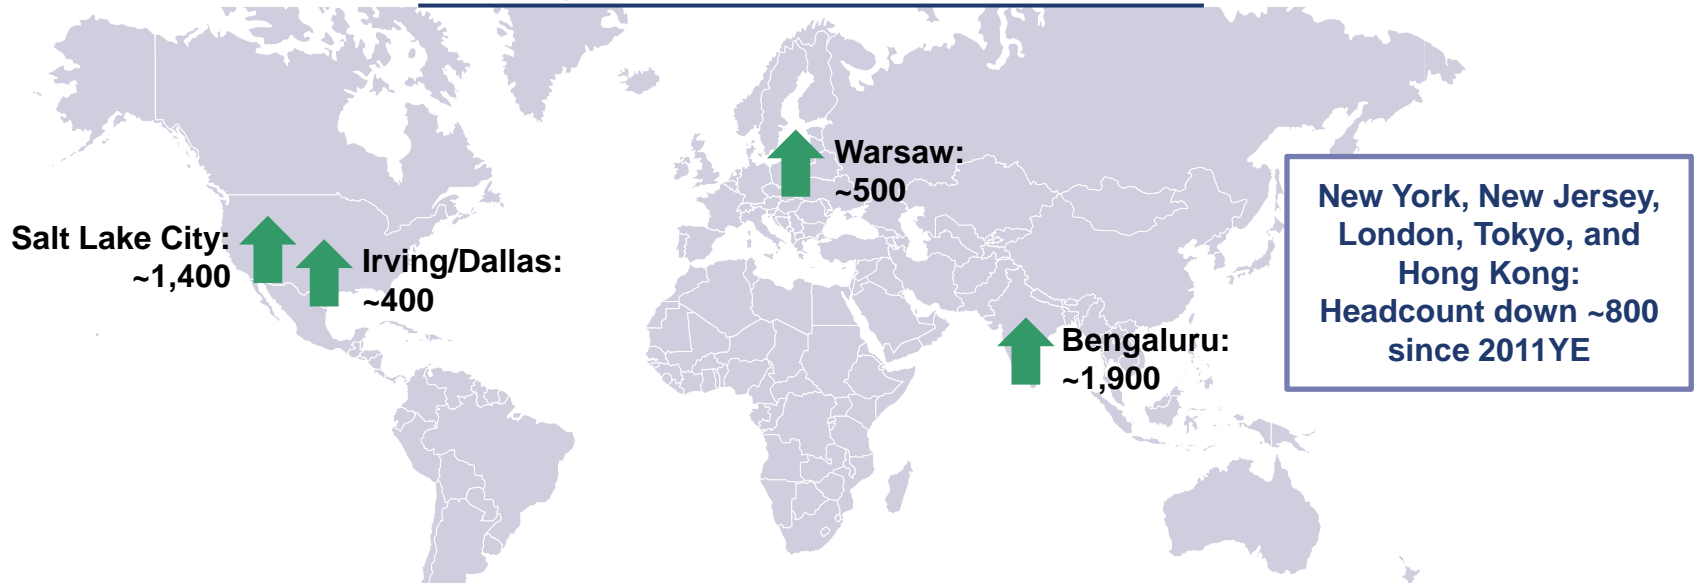

¹ Capital return amount includes FY2012 through 3Q17. ² GS basic shares includes common shares outstanding and restricted stock units granted to employees with no future service requirements.

³ Adjusts reported common shareholders' equity, average common shareholders' equity, and basic and diluted shares to exclude the impact of share buybacks from FY2012 to 3Q17. Common shareholders' equity and average common shareholders' equity include dividends that could have been paid on these additional shares. Assumes no change to reported net earnings applicable to common shareholders

Disciplined Expense Control

Track Record Positions for Operating Leverage

Change in Headcount: 3Q17 vs. 2011YE

Committed to Delivering Operating Leverage

~30% of global headcount in strategic locations

~\$2.8bn in announced and completed initiatives¹

2 of 4 largest offices are strategic locations

920bps reduction in average annual compensation ratio² 2009-2016 vs. 2000-2007

¹ Comprised of \$1.9bn run-rate savings completed in 2011-2012 and \$0.9bn run-rate savings completed in 2016

² Ratio of firmwide compensation and benefits expense to net revenues

Executing on Strategic Priorities

Adapting Franchise to Drive Shareholder Value

Delivering on a variety of strategic initiatives from a position of strength

Debt Underwriting League Table Rank

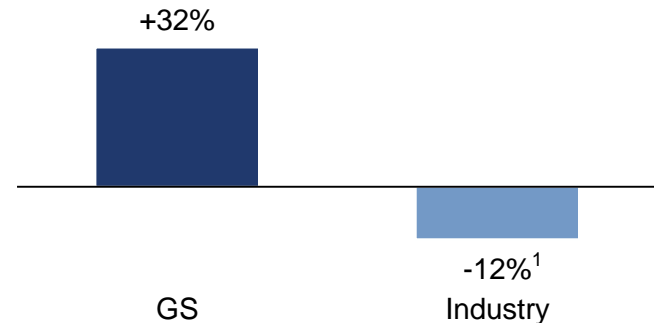

Assets Under Supervision (3Q17 vs. 4Q12)
